Help with digital devices available, please call Janet on 07482 606808

All details are provisional. Please regularly check <https://www.corinth-training.com> for any last-minute changes and new course additions. We apologise in advance if changes must be made. **Course details correct as of Aug '25.**

Courses are free conditional on at least 50% attendance, aged 19+, resident in the UK for 3 years or more, a Greater Manchester resident and completion of a learner journal, (returned to Corinth each lesson/end of the course). Enrolment on a course is during the first lesson. Enrolment requires 1 proof of resident status, e.g. birth cert, or bank card, or driving license, or passport, or residence permit/eVisa, or proof of pre settlement/settlement status and valid share code. Residence permits/eVisas must be valid during and for at least 6 months after the course end date.

The above courses are community training courses and are not certificated. For business enquiries please call or email us as per our contact details.

All courses are eight weeks in duration unless otherwise indicated. T&C's apply around European/non-European resident status. E&OE. Corinth Business and Community Training C.I.C. is a not-for-profit community interest company, putting the learner at the heart of what we do. Corinth Business and Community Training C.I.C. – where learning makes sense. [Find us on Facebook, Twitter, Instagram and LinkedIn.](#)

First Steps IT	Next Steps IT																														
This introductory course is ideal for learners with little or no computer experience. Subjects include: using the keyboard & mouse, Internet and computer safety, online shopping, using an Internet search engine to find information and using email.	Ideal for learners who would like to improve existing IT skills. Subjects include: advanced email, using comparison web sites, saving money online, digitally repairing a torn photo, making a digital slide show, an introduction to online office apps, and an introduction to using cloud technologies.																														
Beginners MSOffice	Intermediate MSOffice																														
Ideal for learners looking to learn new Microsoft Office skills or build on existing ones. Includes: digital file management and introductions to word processing, spreadsheets, designing desktop publications, and creating presentations.	Subjects include: advanced use of using tables with word processing, getting to grips with formulas, autofill and charts with spreadsheets, developing digital presentations and, making a calendar and business cards with desktop publishing.																														
First Steps Spreadsheets	Digital Photography																														
This course is perfect for anyone interested in discovering more about spreadsheet use. The course introduces formulae building, v-lookups, pivot tables, filtering data, logic statements, queries, and relational databases.	This course is ideal for those wishing to learn more about using their digital camera to improve their general photo taking. Put into practise learning concerning the exposure triangle, composition, lighting, camera settings and more. Aimed at bridge cameras and digital SLR cameras.																														
First Steps PowerPoint Presentations	Next Steps Photoshop																														
Are you looking to develop your PowerPoint presentation skills? Perhaps you feel PowerPoint has more to offer than you're aware of how to do? This course dives into the potential PowerPoint offers. Great for learning new presentation preparation and delivery skills and a great go to course for job hunters (that PowerPoint presentation at interview) and those already employed.	This course is ideal for anyone wishing to improve their digital image editing skills. You will be led through the initial steps of image compositing using the industry standard Photoshop package. Learn about non-destructive editing using the range of layer types offered within Photoshop. Some previous Photoshop experience required; some IT skills beneficial.																														
First Steps Advanced Photoshop	Next Steps to Level 2 Maths																														
This course is aimed at those with some knowledge of image compositing, layer masks, adjustment layers and layers in general. The course guides through additional steps to achieving realistic looking photo composites and layer/blending editing techniques. Some previous Photoshop experience of using layers, masks and adjustment layers preferred; some IT skills beneficial	Corinth offers a range of non-accredited math courses that help you learn more around what's expected at GCSE level. This course guides you through some of the core subjects of level 2 math. Ideal for anyone who really wants to get grips with numbers.																														
Confidence Building	First Steps Teaching Adults																														
Do you want to build your confidence? If so, why not come along to this gentle yet helpful and encouraging course.	Are you keen to learn more about teaching adults in the lifelong learning sector? This course guides through learning styles, the role of the tutor, assessment methods, lesson planning and delivery and more. It is aimed at those new to adult ed and those with some prior understanding/experience.
